

My Avatar Editor

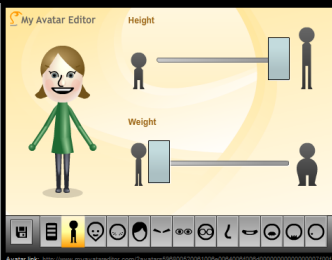

<http://www.myavatareditor.com>

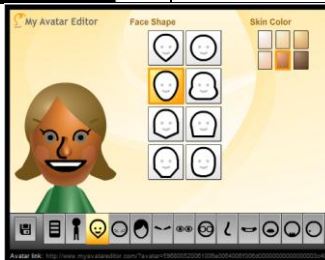

- Avatar Name: Give it a name. How about your own.
- Creator Name: Use your name
- Gender: Male or Female
- Mingles: No... This is a social networking site. You don't want to mingle at least not in this class.
- Favorite Color: Color of your outfit
- Birthday: Make it up

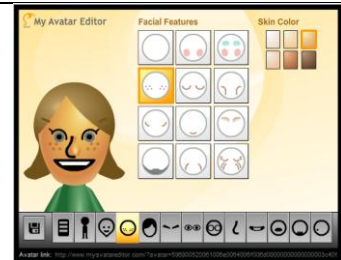

Now let's get started with the bottom bar. The view you are in now is the screen above.

Top bar will make your avatar shorter or taller. Bottom will make your avatar skinny or heavy.

Pick the face shape by clicking on the picture. Now change your skin tone color by clicking on the skin color you want to use.

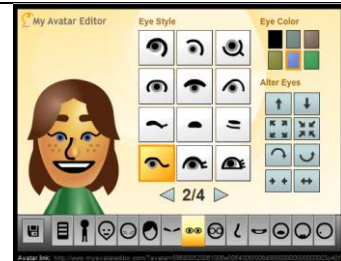

Choose facial features

Notice there are 6 pages of hair styles. You can choose hair color. You can also choose how to part the hair.

Now choose your eyebrow style and color. The 8 tools on the right will move and slant the brows.

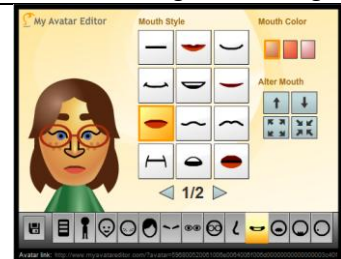

Eye Style is next. There are 4 pages of eye styles. You can choose eye color. The 8 tools on the right will change them

You can add glasses and shades

Select a new nose and change its shape

Select a mouth, add color, and change its shape

Add a mustash

Add a beard

Add a mole

Press the disk on the bar to save.

If you press save, it will save a copy down to your drive. You can then call it up later to edit.

If you want to do some fun things with your Avatar, click on export.

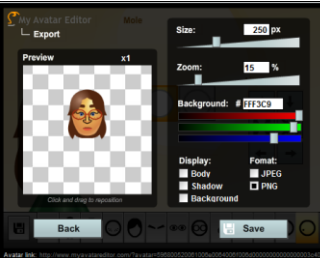

When you do you can change all sorts of things like the background color

Using the boxes, you can click to PNG.

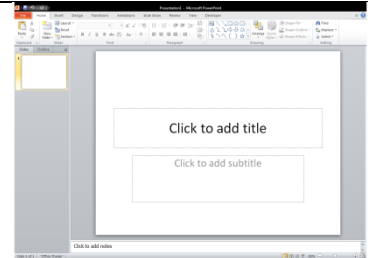

This format will allow you to make the background clear.

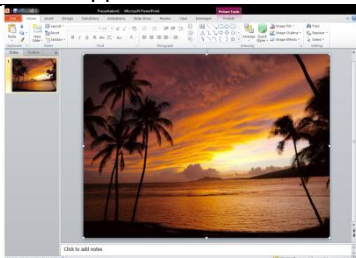

You can also make your body and shadow disappear

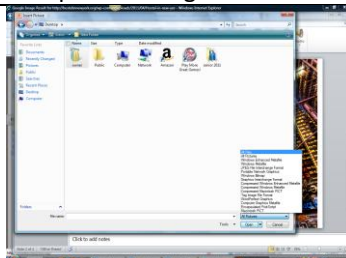

When you press save, you can choose where to put the image

To show you let's go to PowerPoint

Add a background

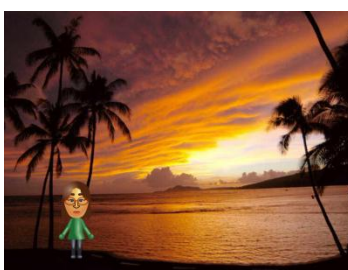

Go to where you store the image.

Choose all files to see it. Then click and add. PNG files don't show on PP.

You can put your avatar anywhere!

On vacation

In a city

In a heart

In history

With My Avatar and PowerPoint
You are limited only by your imagination.
